

# Avast Business CloudCare

Make even the smallest customer more profitable

## When customers have high expectations but modest budgets, we help you enhance your service and margins.

Avast Business CloudCare is a free, web-based security portal with premium remote control that simplifies how you manage all your customers' networks from a single, central platform and pay-as-you-go services that deliver the essential services every business needs.

### MAKE MORE MONEY

Help boost your profit margins with cloud services and demonstrate added value to your customers. Identify revenue opportunities with real-time sales alerts.

### LOWER COSTS

Pay only for the services your customers use. With remote access and one-click activation, costs are minimized so even your smallest

customers can be profitable.

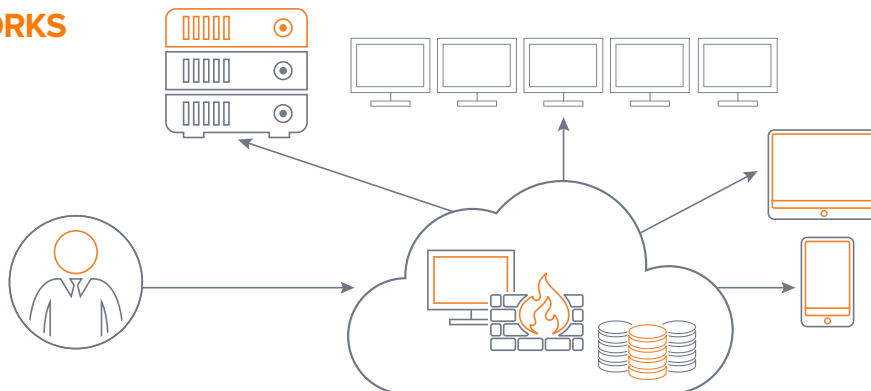

### SAVE TIME

Remotely manage your customers from our free, cloud-based administration platform, enabling you to save both time and travel costs. Real-time and automatic updates mean less work for you.

- Web-based access
- FREE remote management tool

- One-click customer and service activation
- Real-time alerts and sales alerts
- Flexible and co-branded reporting
- 30-day trials for multiple services
- Easy policy management
- No upfront investment
- No licence keys, no seat limits

### HOW IT WORKS

**WATERDOG COMPUTER WORKS**  
Business & Residential Technology Services

**avast business**  
powered by AVG and Avast

## Every essential service from one free web portal

Protecting networks, securing email, improving efficiency, storing data, securing access, and solving IT issues just became easier and more profitable.

### ANTIVIRUS

#### Better protection for customers and recurring revenue for you

Offer your customers the latest protection without draining your resources. A single, central management platform alerts you when issues arise and enables you to push policies and automatic updates across all your accounts - and all without heavy, hands-on management.

### CONTENT FILTERING

#### Block threats and reduce distractions on the web

Help your customers block threats by excluding access to malicious websites – and help boost their productivity by managing web access based on usage policies of their choice.

### PREMIUM REMOTE CONTROL

#### Rapid response support without the cost of on-site visits

Resolve customer issues rapidly and remotely with one-click connections that let you access customer workstations and servers from the security portal.

### CENTRIFY IDENTITY SERVICE

#### Make secure access to all services simple, across all your compatible devices

Use one cloud-based console to manage and monitor your clients' backups remotely, and easily troubleshoot issues without requiring VPN or direct network access.

### CLOUD BACKUP

#### Protect customer data securely and ensure it's available when needed

Protect customer data from loss and theft with regularly scheduled backups that run automatically. Restore anywhere from a single file to an entire directory if data becomes lost or corrupt in the customer's environment.

### EMAIL SECURITY SERVICES

#### Stop spam, secure email, simplify management

Offer your customers the essential email services they need – from blocking viruses and spam to complying with industry regulations and privacy requirements. Deploy, manage, and update these services remotely from wherever you are without additional hardware or third-party software. Includes: AntiSpam, Email Archive, Email Archive Lite, and Encrypted Email.

Only Avast Business CloudCare delivers all these services from a single, integrated security portal.
